# THE JACUZZI® BRAND

The relentless motivation that drives Jacuzzi® brand forward is simple - to create wellbeing products that improve people's mental and physical state.

From the founding days of the brand in the 1940s, Jacuzzi® products are now manufactured in three continents and enjoyed by users across more than 100 countries.

By employing thousands of people around the world, and representing decades of innovation, design, performance and ease of use, we've earned the trust of millions, globally.

# HERITAGE

The story of the Jacuzzi® brand began with a father's unwavering love for his son.

In the 1940s, Candido Jacuzzi's toddler son, Ken, developed rheumatoid arthritis. Driven with a purpose to help relieve his pain, Candido invented a hydrotherapy pump for the family bathtub.

The invention, known as the J-300 pump proved a success.

Once the first sale of the pump was made in the 1950s, the industry for at-home hydrotherapy was brought to life.

Thriving and flourishing more than 65 years later, the Jacuzzi® brand continues to propel the industry forward with the caring mindset the J-300 pump was built on.

## 1900s

The Jacuzzi family departs Italy for the United States and transforms the aviation and agriculture industries.

## 1940s

When Ken was diagnosed with rheumatoid arthritis, his father, Candido, invented a portable hydrotherapy pump. It was placed in the family bathtub to provide pain relieving hydrotherapy. This pump is known as the J-300.

## 1950s

The J-300 pump was presented on national daytime television show Queen for a Day. Boasting 20 million viewers, the Jacuzzi® brand became an overnight sensation.

## PRESENT

The Jacuzzi® brand has been awarded more than 700 patents and the number continues to rise. This is a result of continual breakthroughs in jet engineering, design and technology innovations.

## FUTURE

The Jacuzzi® brand continues to develop products that have a positive impact on people's health and wellbeing. Jacuzzi® maintains the position of industry leader and the most recognised hot tub brand in the world.

# INTRODUCING JACUZZI® SWIM SPAS

Searching for ultimate flexibility between fitness, fun and relaxation that's right on your doorstep?

A Jacuzzi® Swim Spa could be the answer.

A swim spa is a hybrid of common features found in a swimming pool and a hot tub. As the name suggests, this means you can be ultra-active, spend time with family and friends, or simply relax.

Imagine swimming against the resistance of a smooth and controlled current, splashing about or simply unwinding with hydrotherapy.

From the moment you remove the cover, reap the benefits of a Jacuzzi® Swim Spa that bring joy and wellness to your life.

ADAM PEATY

# JACUZZI® AMBASSADORS

Jacuzzi® is serious about wellbeing. All of our products are designed with the aim of improving people's lives and ultimately, helping them relax, recover and reconnect.

We have a long history of partnering with ambassadors who recognise the value our products can bring to everyday lives.

Our swim spas add a new dimension to traditional Jacuzzi® product experiences with the option for fitness and training. Our ambassadors have a wide variety of uses for their swim spas, from teaching their children to swim, through to training to win Olympic and Paralympic Gold.

# PARTNERING WITH ADAM PEATY

As one of the best breaststroke swimmers to ever grace the pool, his legacy is still being written.

Adam Peaty is the first British swimmer to defend an Olympic title, repeatedly earn top spot on the world stage and has a knack of breaking world records 'for fun'.

His attitude towards training, performance and recovery is second to none.

In 2020, Jacuzzi® loaned several British swimmers a swim spa each to allow them to continue training for the Olympics during lockdown. Adam Peaty was one of those swimmers and he's since described the swim spa as a great contribution to his success in Tokyo.

Welcoming Adam to the team as a proud ambassador became the natural next step.

# PRECISION SWIM

The latest aquatic technology and Jacuzzi® PowerPro® jets work together to produce an elite, high-performance swim experience.

## BALANCED SWIM JETS

Swim jets produce a consistent flow of water at variable intensity levels. This means you can swim against the resistance of the swim jets and maintain a central position in the swim spa.

## REFLECTIVE HIP

The unique shell design incorporates the shape of hips. This prevents reflective waves creating turbulence in the swim channel.

## PREDICTABLE CURRENT

Suctions near the back of the swim spa pull the flow of water. This creates a consistent current.

## STAY ELEVATED WITH THE BUOYANCY JET

The SteadySwim™ buoyancy jet helps elevate you into a natural swimming position.

# HYDROMASSAGE

As well as being used to swim or train, Jacuzzi® Swim Spas also feature our renowned hydromassage seats.

## PERSONALISED MASSAGE

To ensure you experience an optimal massage, our swim spas are engineered with the average measurements of 90% of the population in mind.

## COMFORTABLE SEATING

Seats in a Jacuzzi® Swim Spa are designed to follow the natural contours of the body. They are also fitted with recessed jets for a comfortable, premium hydromassage.

## ADJUSTABLE PRESSURE

Each jet is calibrated to deliver the perfect balance of air and water. The seats are designed with the exact pump-to-jet ratio to ensure optimum hydromassage. This is known as our Aqualibrium® formula.

Jacuzzi® Swim Spas feature four seats that are designed to follow the natural contours of the body.

Adjustable pillows and recessed PowerPro™ jets allow you to sit back and treat your body to a premium hydromassage.

## RX JET THERAPY SEAT

The spinning sensation created by the RX jet provides comforting relief to the back and neck. This seat delivers the highest performing hydromassage that Jacuzzi® Swim Spas offer.

## FX THERAPY SEAT

Alleviating swimmer's soreness in the neck, shoulders and back, this full coverage massage seat produces a deep, adjustable stream of spiraling air and water.

# CLEAN WATER

CLEARARRAY Active Oxygen™ technology harnesses the natural power of air and light to clean water.

Exclusive to Jacuzzi® products, the advanced oxidation process involves the use of injected ozone gas and a UV-C bulb. Once the ozone is activated, it destroys contaminants and waterborne pathogens.

What does this mean?

- Reduce hot tub chemical usage by up to 50%
- Save money on maintenance products
- Soak in water that contains less chemicals. Kinder to your skin.

## UV-C SYSTEM

Nature-inspired technology that neutralises pathogens

Works with traditional chlorine or bromine sanitiser, for sensitive skin

The same technology used in bottled drinking water, aquariums and hospitals

## UP TO 4-STAGE FILTRATION PROCESS\*

- STAGES 1 & 2**

The surface skimming weir and ProCatch™ bag work together to trap debris on the top of the water, as well as large debris, for easy removal.
- STAGE 3**

Two ProClear® filters provide another layer of detection by catching tiny debris particles that other filters miss.
- STAGE 4**

CLEARARRAY Active Oxygen™ uses power of air and light to reduce chemical usage and destroy water contaminants and pathogens.

\*Stages of filtration may vary by model

# QUALITY

Jacuzzi® Swim Spas are designed for reliability, both inside and out. We believe that quality is only as good as the people, processes and parts behind the products. That's why our products are engineered with the best materials to ensure an exceptional product.

## PROFUSION™ SHELL

Three layers of material for a strong, scratch-resistant shell.

## ENERGY EFFICIENT INSULATION

Industry leading, multi-layered insulation that retains and recycles heat.

## REFLECTIVE HIPS

Shell design prevents reflective waves for consistently smoother water.

## POWERPRO™ JETS

Hydromassage technology that's exclusive to Jacuzzi®.

## PROLAST™ COVERS

Custom fit to lock in heat and improve energy efficiency and safety.

## GALVANISED STEEL FRAME

Designed for durability and increased structural support.

## DURABLE PROPOLYMER™ BASE

Impervious to nature and moisture, and makes installation easy.

## PROENDURE™ SYNTHETIC CABINETRY

Stylish, durable, synthetic cabinetry.

## COMPREHENSIVE FITNESS ALTERNATIVE

- Engage with other swimmers in the app
- Share workouts and results on social
- Use for swim and resistance training for all fitness levels

# SWIM SPA FITNESS

Exclusively on Jacuzzi® Swim Spas, our patented PowerTone™ equipment capitalises on what we call the principal of fluid omni-directional drag resistance in water and is designed to leverage the 3D properties of water. Quite simply, this means working a muscle group equally and smoothly in any direction. Drag resistance training is suitable for all ages and fitness levels.

The PowerTone™ kit includes PowerTone™ Bells, Swing Trainer, and Resistance Fins. The kit is accompanied by a 6-workout series utilising all of the PowerTone™ equipment with varying intensity levels.

# JACUZZI® POWERTONE KIT™ & WORKOUT SERIES

## PowerTone™ Core

With a focus on abs, glutes and back, the PowerTone™ Core workout utilises all of the equipment in your kit to build both strength and stability. Your goal is to bring awareness to the centre of your body, prioritizing form over speed.

## PowerTone™ Endurance

Building upper body strength through long intervals, this workout gives you the opportunity to increase your max reps and work towards muscle fatigue. With a nice, long gentle warm-up, followed by 8, 2-minute sets, you will be sure to test your endurance in this signature PowerTone™ workout.

## PowerTone™ Strength

With only six exercises to focus on, bring your awareness to how each movement feels as you build strength using water as resistance. Round one is not about moving quickly, but learning the motions and improving form. In round 2, the focus shifts to increased intensity, and 20 seconds of recovery is included between exercises.

## PowerTone™ Circuit

A classic circuit with lots of variety, this total body experience will leave you wondering how 20 minutes went by so fast! Moving quickly from exercise to exercise, have fun while enjoying this two-lap workout. Make sure you give yourself a few minutes to warm up before you begin.

## PowerTone™ Functional

Created to mimic the movements of everyday life, this functional workout brings speed into round one, and endurance into round two. With the 30-second interval to start, you will be challenged to push your pace. In round two, see if you can double your reps.

## PowerTone™ Tabata

Will push that VO2 Max, and leave you feeling breathless. This workout is 4 rounds of 10 exercises in a 20 seconds on/10 seconds rest format. Grab your PowerTone™ bells and get ready!
