HERITAGE WHEN THE SEVEN JACUZZI BROTHERS IMMIGRATED TO THE UNITED STATES, THEY HAD NO IDEA THAT A PUMP THEY DESIGNED FOR ORCHARDS WOULD REVOLUTIONISE HYDROTHERAPY IN THE HOME. WHILE THE FAMILY'S CRITICAL NEED TO CHANGE THE LIFE OF A CHILD TRIGGERED THIS THERAPEUTIC INVENTION, A DESIRE FOR WELLNESS PIONEERED AN INDUSTRY.

THE NAME THAT LAUNCHED AN INDUSTRY CONTINUES TO REDEFINE IT

By 1920 all of the Jacuzzi Brothers had immigrated to the United States, determined to change the world with their inventions. Starting by laying roots in the aviation industry, their invention of a hydraulic aircraft pump led them to the creation of a deep well agricultural pump.

By the 1940's, 15-month-old Ken Jacuzzi was diagnosed with debilitating rheumatoid arthritis. When traveling for hydrotherapy treatments at a distant hospital began to wear on his child, Candido Jacuzzi redesigned the agricultural pump into what's known as the J-300™ hydromassage pump, turning any soaking bathtub into a relaxing and rejuvenating hydro-therapeutic spa, and allowing Ken to return to the family home.

Overwhelming demand for the hydromassage pump led to the founding of Jacuzzi® in 1956 and the whirlpool bathing category was born. Since then, the company continued to lead and grow the new industry, from integrating pumps and jets into their flagship bathtub to launching their first bath that worked both indoors and outdoors. The first to highly-engineer jets, the Jacuzzi® Brand has become synonymous with jetted hydrotherapy, well-being and performance.

With a foundation in health and wellness and a dedication to research and innovation, Jacuzzi continues to develop products that improve the lives of both high-performance athletes and everyday people while leading the industry.

KEN JACUZZI WITH FATHER, CANDIDO JACUZZI

HYDROMASSAGE

More jets do not equal a better hydromassage, but the right jets do. Jacuzzi® Brand hydromassage utilises the Aqualibrium® formula – the perfect mix of air and water – to deliver a jetted massage that reduces stress and lower back pain, improves sleep and post exercise recovery, and alleviates restless leg syndrome, cramps, arthritis and fibromyalgia, improving your overall wellbeing. As simple as enjoying a cup of coffee, a regular hydromassage routine can be more beneficial than you realise.

CHOOSING YOUR MODEL

1. SELECT SIZE AND MASSAGE OPTIONS

A common misconception about hot tub size is that you're limited to models with less seating options when garden space is limited. The good news is that a hot tub with more massage combinations requires only a slightly larger footprint; sometimes a matter of only a few centimetres.

2. CHOOSE LOUNGE VS. OPEN SEATING

A lounge seat offers a full-body massage option and a more secluded spa experience.

An open seating model offers more massage options and makes communicating with others in the hot tub easier.
